

Edición Española Online

**torrossa
digital
library**

EEO is an exclusive collection of Spanish research texts in electronic format from a number of prestigious Spanish publishers. All titles have been selected by our experienced Approval specialists for their quality and relevance to academic libraries.

An essential resource

containing multidisciplinary content from over 80 Spanish academic publishers with particular focus on the Humanities and Social Sciences.

Compiled with care

to ensure a quality collection of scholarly value, including produced both by well-known publishing houses and by highly specialised but lesser-known publishers.

Continuous updates

are made to the collection as relevant new content is made available. Subscribers are notified of additions to the catalogue at regular intervals during the year.

New contributors

are also added to the collection on a regular basis, as our dedicated publisher relations team works to bring on board an increasing number and range of publishers.

You choose

the content you prefer, according to your institution's interests and budget. Our selectors propose three ready-made collections: e-books only, e-journals only and Spanish studies and are happy to compile custom collections on request.

Personalise your catalogue

even further by selecting and purchasing single titles directly from our website, using exactly the same online ordering tools and workflows as for print titles.

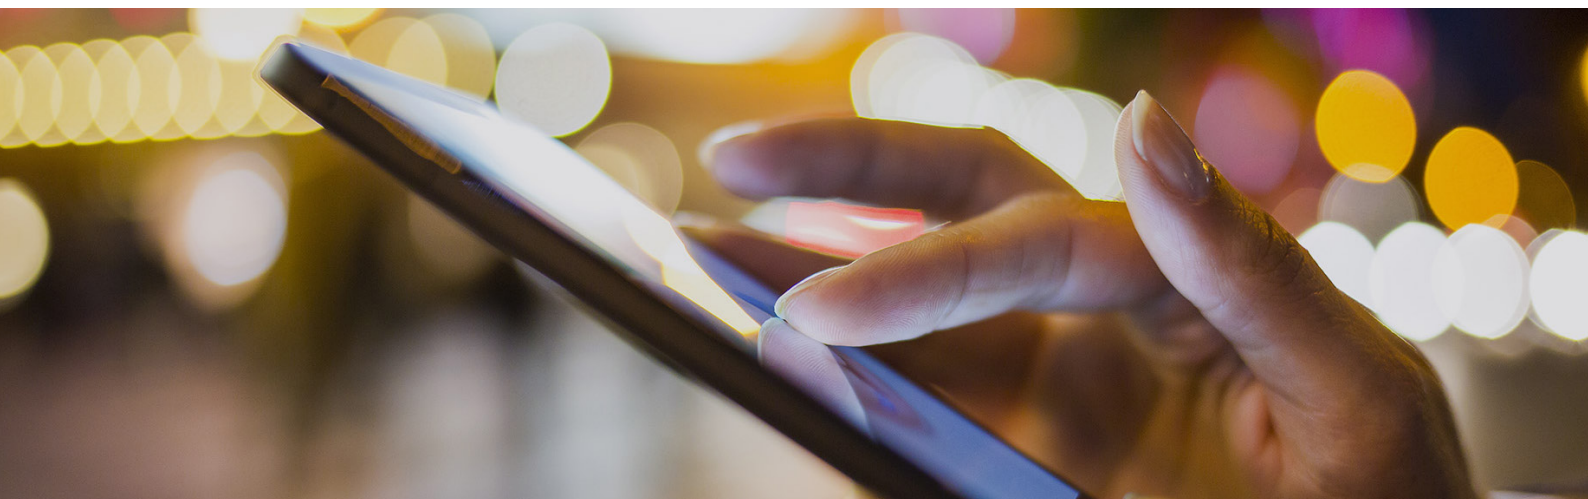

Discover what's on offer

through regular New Title Information updates, tailored to reflect your interests and fully integrated with our online bibliographic database and ordering tools.

EEO Licence & Access

- A single licence is applied to the entire range of content from all publishers collaborating in EEO, simplifying acquisitions and administration.
- A range of flexible acquisitions options, from Patron Driven and Approval plans to collections, subscriptions and purchase of e-journal archives.
- Permanent access to all content purchased is guaranteed
- Fully searchable PDF files make documents easy to read and use
- An unlimited number of users may access the content at any time
- Usage permissions allow users to view, copy/paste and print texts
- Files may be downloaded for personal use for fourteen days
- Maintenance of access to content on the Torrossa platform is provided free of charge to subscribers; an annual fee is applied in the case of cancelled subscriptions
