

New Torrossa online Reader

Optimised visualisation of e-content on the Torrossa platform

Casalini Libri is pleased to announce the launch of a new integrated tool providing easier visualisation of full text content available in the Torrossa digital library.

Available for PC and devices, the Reader has been specifically developed to improve visualisation from tablets and smartphones. It is compatible with major internet browsers and does not require additional plug-ins or settings.

The seamless navigation offered by the Reader also allows users to search within the full text, highlight the search term and view the page map of the document.

We are confident that our users will benefit from the new feature, which simplifies access to, and consultation of texts.

The screenshot displays the Torrossa Reader interface. At the top, the title "Michelangelo: it would have no equal in all the world" and author "Bianchini, Nicola" are visible. The interface includes a table of contents on the left, a main text area, and a detailed view of a page. The detailed view features a large image of Michelangelo's bust and a section titled "BIRTH OF A GENIUS" with text about his early life. The bottom of the interface shows the page number "14 MICHELANGELO" and the page number "15 INTRODUCTION".

For further information or assistance regarding the technical features of Torrossa, please write to us at torrossa@casalini.it.

Since its foundation in the late 1950's, Casalini Libri S.p.A. has been dedicated to the supply of bibliographical services, books and journals to national, academic and public libraries and institutions worldwide. Since its outset Casalini Libri has worked closely with libraries and publishers to develop customized supply and library services that suit the individual needs of our customers around the world.

The Casalini Libri Digital Division, established in January 2000 following an international pilot project, offers innovative electronic publishing services to the highest industry standards, collaborating with Italian and international publishers to create and distribute digital publications.

The company, headquartered in Fiesole (Florence, Italy), adheres to the ISO 9000 Quality Management System.
